here by intent.

The wrecked train was No. 91 with The wrecked train was No. 91 with engine No. 1395 hauling tweive cars northbound. The crew were Engineer Erowning, Fireman Schultze and Conductor Supt. William E. Costello. The train was switching about in the vicinity of the siding and it is said that when it attempted to take the main line it was running at about twenty. where it attempted to take the main line it was running at about twenty miles an hour and ran off the track because the switch was thrown in such a way as to leave the iron open. Fireman Schultze, it is believed, was pinched between the engine and tender when the train jacked up and then he jumped and still further injured himself. He was taken to St. Joseph's hospical, where he was given medical attendance. His right thigh and leg is somewhat strained and hrused and his left leg below the knee is also quite badly wrenched. It is not known whether he sustained any internal injuries or not.

The engine and three cars were compleiely off the iron, but two cars were getten back into place before the wrecking crews arrived. Two crews, one from New London and one from Palmer are at work at the scene of the wreck and will be kept busy for hours. It is not believed that the tracks will be cleared so that trains can run before today (Monday).

The ties were torn up for a distance of between fifty and sixty feet and the grucks of the engine and one car were of between fifty and sixty feet and the trucks of the engine and one car were completely buried in the soft ground clear up to the bodies. No real damage was done to any part of the train. The inconvenience caused by the wreck, however, is considerable, and the damage in other ways is said to be no small item as three freight trains were to be moved Sunday and these were all tied up and all traffic effectually 'Jocked.

DANIELSON Brooklyn Savings Bank Stockholders' Annual Meeting-Killingly Selectmen About to Begin Changes in Bridges and Culverts-Taftville 3, Tri-Village 1-Personals

At the annual meeting of the stock-holders of the Brooklyn Savings bank the following officers were elected for the ensuing year: President, J. Arthur Atwood, Wauregan; vice president, James M. Paine, Danielson; secretary and treasurer, Clarence A. Potter, Brooklyn; trustees, William H. Burnham, Henry C. Atwood, Claramon Hunt, Frank H. Tillinghast, Charles Bragg, Floyd Cranska, Clarence H. Truesdell, J. Walter Atwood, Dr. Rienzi Robinson.

The business of the institution has shown a very satisfactory growth both in deposits and net profits during the last statement of the condition of the bank, issued on July 2, shows the total assets to be \$1,630,279.51. The deposits amount to \$1,539,741.85, sur-plus and profits to \$46,578.85, and the interest account to \$23,958.81.

TOWN IMPROVEMENTS.

Plank Bridges at Elmville and Attawaugan and Culvert at East Killingly to Be Replaced by Concrete and Steel Structures.

In carrying out their policy of substituting concrete culverts and bridges when such water crossings have to be repaired or renewed, the selectmen of the town of Killingly have voted to so change from planked affairs the culvert at Mushentuck brook near the Valley schoolhouse at East Killingly, the bridge at Elmville and the bridge at Attawaugan. The work is to begin at Attawaugan. The work is to begin within a short time.

be made have arrived here. It has been found by the selectmen during the past three or four years that the use of these rails in conjunction with con-crete makes a stronger, more durable bridge and one that can be maintained at a fraction of the cost of upkeep that must be met where plank coverings are

For instance, the bridge to be changed to concrete at Elmville has cost the town \$50 a year for the past eight years for replanking alone. The high price of plank has also been a factor in inducing the selectmen to adopt the more modern and substantial method of repairing the bridges and culverts in the town of Killingly, the maintenance of which amounts to a considerable sum each year.

such a bearing down sensation, as if the lower parts would fall out. Lydia E. Pinkham's Vegetable Compound has done my nerves a great deal of good and has also relieved the bearing down. I recommended it to some friends and two of them have been greatly benefited by it."—Mrs. Mae McKnight, Oronogo, Mo.

Another Grateful Woman.

St. Louis, Mo.—"I was bothered terribly with a female weakness and had backache, bearing down pains and pains in lower parts. I began taking Lydia E. Pinkham's Vegetable Compound regularly and used the Sanative Wash and now I have no more troubles that way."—Mrs. Al. Herzog, 5722 Prescott Ave., St. Louis, Mo.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female file, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, indigestion, dizziness, and nervous prostration. It costs but a trifle to try it, and the result is worth millions to many suffering women

Mrs. W. P. Griffin of Water street the same time clothing manufacturers. the same time clothing manufacturers traced to the "wheel" a decided de-crease in the demand for articles of crease in the demand for articles of formal wear, such as frock coats. They, however, counteracted this influence of the aport by designing "fetching" and often startling bicycle costumes, a wise and profitable course pursued by them also in the case of the automobile. Some years later the spread of outdoor life and sports and fads, golf and the motor car foremest among them, was made responsible also for the collapse of the "book boom," although this theory was not taken seriously, if for no other reason than that books are the least costly than that books are the least costly of luxuries, if they be called luxuries at all.—New York Tribune.
